Figure 1 is a schematic diagram of a multi-layered structure, possibly representing a network or a system with multiple layers. The structure is divided into four horizontal layers, labeled H1, H2, H3, and H4 from top to bottom. Each layer contains a circular region with several small circles (nodes) inside. Vertical dashed lines connect the nodes across the layers. Curved lines labeled U1, U2, U3, and U4 connect the nodes within each layer, representing a network or flow structure.
